O2 Name: HINDRICKSON, ANN Addr: DCFS CSZ: PROVO, UT AKA:	DOB: Sex: F HP: Testify:	Age: Race: Eth. WP: 801 374-7238

The Details are as follows:

On 4-27-00 I spoke with O2/Ann who is a case worker for DCFS concerning the Hamblin family. O2/Ann stated that she just concluded a full investigation and closed it in February of 2000. I then told O2/Ann of the new allegations which I had received in the office from the family, mainly concerning the

O2/Ann then stated in her opinion the situation with V1/ as well as the has been completely looked into during a recent prior investigation which included detectives from Provo City. She stated that the new allegations sound like the old allegations being brought in again. O2/Ann stated that DCFS would not be opening another case on the family based on the information I gave them. Her main concern at this point was not rehashing the incident with the children, but instead making sure they were getting the counseling they need. O2/Ann also told me that in the recent past, the mother of V1/ has been attempting to get victim's reparations monies from the state and was attempting to have DCFS open a case on her adult daughter concerning some old allegations when she was a juvenile. O2/Ann stated that DCFS refused to investigate incidents where the victim is an adult. Apparently the mother was somewhat upset with DCFS and O2/Ann.

It should be noted that on 4-27-00, I also spoke with my supervisor Captain Teuscher concerning the case and the information I had received on the past investigation. It was in his opinion that the case should not be reopened due to the fact that it was just investigated. I will be contacting the family again to inform them of the decision. Please refer a copy of this report to Vicki Proctor for her information and possible contact with the family concerning the situation. dispo S dg

The Details are as follows:

On 05-01-2000 I spoke with DCFS, 02/Ann. She stated that she is concerned that the children are kept in a constant state of crisis by having to go over the incidents all of the time. We discussed counseling options for the children. CDFS is currently aiding them with this.

She will contact me if other concerns arise or if I can be of additional assistance.

No further information at this time. Dispo. 4 /jb

The Details are as follows:

On 4-25-00 at approximately 1330 hours while on office call in the Detective Division, I met with V1 concerning some sexual abuse involving the interview rooms where I spoke with her privately and found the following.

V1 stated that she and her three other sisters have lived with [REDACTED] custody of the siblings to the mother, O1/Rose Hamblin in the office pending divorce. V1 stated that growing up, was very abusive both mentally and physically. She also stated that she felt somehow that she was a victim of some kind of sexual abuse but was unable to recall certain events. V1 stated that recently, approximately four months ago, she began to see a therapist, the name of Hugh Alined. V1 stated that because of the therapy, she has begun to have more frequent nightmares in which she believes that she recalls some information pertaining to some incidents of sexual abuse. V1 then began to tell

me that she had recollections of an incident or incidents which occurred in New York state when the family lived there, when Vi/ was approximately four to six years of age. Vi/ stated that the recalls being on the bed with her, where in she was forced to have oral sex as well as have oral sex done to her by Si/Hamblin. I then Vi/ if she recalled any incidents which happened at 280 East where the family used to reside off Si/Hamblin.

Vi/ stated that she recalls approximately four years ago when she was 1/ she stated that she recalls appproximately four years ago when she was which involved putting his finger in the anus of herself as well as her sisters. She believes that possibly in the summertime approximately four years ago she remembers sitting on the floor with her siblings and close by. Vi/ stated that she remembers bending over at which time Si/Hamblin supposedly inserted his finger into her anus for approximately five to seven seconds. While doing this he "wiggle" his finger. Vi/ stated that she remembered telling him not to do it again. She also stated that she felt extremely uncomfortable and violated.

I then asked Vi/ to give me a background on what she used to play a game that he called fishy which involved putting his finger in the anus of himself as well as her sisters. She believes that possibly in the summertime approximately four years ago she remembers bending over at which time Si/Hamblin was, however, Vi/ stated that she remembers bending over at which time Si/Hamblin was, five to seven seconds. While doing this he "wiggle" his finger. Vi/ stated that she felt extremely uncomfortable and violated.

As far as the actual recollection of the sexual abuse, Vi/ information could not remember anything else about dates or times or other information about the victimized or have been victimized prior to their mother in the separation.

I was then informed by Vi/ as well as the OI/Rose Hamblin that I apparently Detetctive Walker investigated a case back in 1999 involving sexual abuse with the and some of his report. Apparently this case was unfounded. I was able to find this report. The case number is 9906053. After speaking with Vi/ I then spoke with OI/Rose concerning the allegations. OI/Rose stated that she was not aware of any potential sexual abuse until the past year when apparently made a comment relating to a man's bodily fluids. This caused her some concern and this is when she initiated an investigation involving Detective Walker. OI/Rose stated that in her opinion Si/Hamblin is involved in some very strange things that involves Satanism and ritualistic abuse and the use of drugs. She also stated that she is scared of Si/Hamblin and her four girls are also scared. Vi/ told me personally that she did not want this to get back to because she was afraid of what he might do.

After speaking with OI/Rose I concluded my initial contact with the two parties. I then had Vi/ fill out a statement pertaining to the memories which she stated had become more clear to her recently involving the incidents of sexual abuse. She then filled out a statement pertaining to what she remembered about an incident in Provo as well as an incident in New York State. This will be included with the report. It should be mentioned that currently the girls are not in the company of Si/Hamblin. They have been court ordered to visitation only if they agree to see Si/Hamblin. They are currently residing with their mother and are not in immediate contact with Si/Hamblin. It is also believed that due to the fact that these allegations are several years old there is most likely no physical evidence to be collected and this case will be based on corroborating testimony if

Found.

Before parting with Vi/Rose and Di/Rose I spoke with Di/Rose about interviewing the other minor children. Di/Rose stated she believes that this would be possible. I then advised her that it would contact the CJC for an appointment where I could then interview her. She was 17 years old pertaining to possible incidents that have occurred with them. It should also be noted that the year old was interviewed in Bud Walker's investigation and did not disclose any sexual misconduct by Si/Hamblin due to his profession. Di/Rose's explanation to this was she believes Si/Hamblin in an effort to keep the information hidden. In any event another interview will be done with the 17 year old as well as the other girls to develop any possible facts which may lead to eventual charges.

After ending my contact with the two parties, I then pulled up the incident screen where I found that Officer Turner had, in fact, taken a report at the home of Si/Hamblin back in mid 1999 pertaining to the obsession of Peyote and also different wild life body parts including eagle feathers. I talked with Officer Turner pertaining to this incident. He stated that Si/Hamblin openly admitted to practicing a kind of Indian ritualistic medicine in which Peyote was involved. This would substantiate the claims by Di/Rose and Vi/Rose pertaining to their statements concerning Di/Rose's religious practices which they find disturbing and quite bizarre.

This concludes this preliminary report. Further reports will be made after interviews have taken place. After contact with the other sisters, I will then add their personal information to this report. Dispo 4 dd
